This catalogue is dedicated to Lucía Viyuela Ballesteros who will light our way from now on.

Este catálogo está dedicado a Lucía Viyuela Ballesteros que nos iluminará de ahora en adelante.

Diesen Katalog widmen wir Lucía Viyuela Ballesteros, die unseren weiteren Weg fortan erhellen wird.

a-emotional light es el resultado de la evolución, innovación y experimentación. Creamos lámparas hechas a mano transformando materiales únicos e innovadores de forma artesanal. Esto, unido a más de 25 años de experiencia en iluminación y el saber hacer de nuestro equipo de artesanos, hacen de nuestras lámparas piezas exclusivas presentes en más de 80 países.

a-emotional light is the product of evolution, innovation and experimentation. We transform singular and innovative materials to craft handmade lamps. This, together with our more than 25 years in lighting and the experience of our team of craftspeople, makes our lamps truly exclusive pieces, which are present in more than 80 countries.

philosophy

Nuestra filosofía **Lighting life** consiste en iluminar espacios, momentos y personas. Es energía emocional y vida—y nuestras lámparas son el catalizador. Lighting life es el resultado de la interacción entre lo que ilumina y lo que es iluminado, nuestra forma de entender la luz.

Our philosophy **Lighting Life** consists of lighting spaces, people and moments. It is emotional energy and life—and our lamps are the catalyst. Lighting life is the product of the interaction between what illuminates and what is illuminated, our way of understanding light.

light thinkers

Los *Light thinkers* son los que marcan un nuevo camino en nuestra filosofía de producto, manteniendo a través del diseño, los valores del hecho a mano. Incorporan nuevas tecnologías aplicadas al mundo de la iluminación, recuperan procesos manuales como el trabajo con cristal y piedra con el objetivo de poner en valor la luz, la materialidad y la producción cercana.

Light thinkers are those who forge a new path in our product philosophy, while adhering to the value of handmade design. They incorporate new technologies to lighting and bring back manual processes, such as glass and stonework, with the aim of enhancing the light, the materials and local production.

Aportan nuevos lenguajes al catálogo existente y lo dotan de aire fresco para ofrecer las soluciones necesarias a los proyectos de iluminación.

La evolución en los espacios de trabajo y domésticos, las maneras de relacionarse y la sostenibilidad han marcado el recorrido, para llegar al resultado de esta colección en la nueva etapa de a-emotional light.

They bring new languages to the existing catalogue, infusing it with a breath of fresh air, to offer the solutions needed in lighting projects.

The evolution in work and home spaces, the way people relate to one another and sustainability have set out the path towards this collection in a new stage for a-emotional light.

light makers

Light makers son aquellos que están en la sombra iluminándonos con sus manos, dando forma a las ideas a través de un lenguaje único: la luz. Son los que mantienen los valores de la marca incorporando técnicas de trabajo manual, materiales y también emociones para darle valor a la luz de nuestras lámparas.

Con ellos, se incorporan al diseño nuevas formas para entender la luz de las luminarias que crean con sus manos.

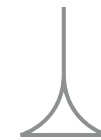

Light makers are those who are in the shadow, illuminating us with their hands, giving shape to ideas through a unique language: light. They are the ones who uphold the values of the brand, incorporating manual techniques, materials and emotions to imbue our lamps' light with value.

With them, new shapes are incorporated into the design to comprehend the light of the lamps they create with their hands.

Projects

With our over 20 years of experience in commercial projects, we can adapt to decorative trends and technological advances at the same pace as your project. Our emotion-laden lamps, designs of all styles, hand production system and broad retail network allow us to convey the requested message through lighting. Crafting by hand, everything you project can come to fruition. The work of our technical projects department and professional back-office in adapting and bringing to life ideas with light has helped us illuminate restaurants, hotels, retail facilities, homes and public spaces. All in more than 80 countries.
