

TAMOTO BED

PRODUCT FACT SHEET

TAMOTO BED

DESIGN BY SHANE SCHNEK, 2022

Developed for HAY by Shane Schneck, Tamoto Bed is designed with multifunctionality in mind, which makes it easy and intuitive to integrate into a modern lifestyle. Tamoto is influenced by the draping quality of kimono sleeves, which inspired Shane's innovative use of folding fabric over the bed's frame.

The soft, draped headboard is counterbalanced by the generously dimensioned steel tubing frame, creating a contemporary and comfortable bed-sofa hybrid that is not intended exclusively for sleeping, but also as a foundation for reading, working, or watching TV and other activities. With a flat-packed, easy-to-assemble design, removable headboard cover and recyclable materials, functionality has been factored in every step of the design process. Available in a variety of sizes and selected soft textiles, Tamoto is a versatile bed that fits most size bedroom and design styles. HAY recommends using Standard Bed Slats and Standard Mattresses with Tamoto Bed for the optimal complete solution.

HIGHLIGHTS

- Versatile and multifunctional bed that fits most size bedroom and design styles
- Functional, flat-packed, and easy to assemble.
